BRIEF CRITERIA ANALYSIS

Japhet did not meet any of the primary criteria. The community expressed an interest in making the school a PK-5 elementary school instead of an academy, in part because the building is poorly suited to serve as a PK-08 academy. Japhet was fully constructed and renovated in Bond 2010. The facility was originally designed as an elementary school. It is projected that in 2024 there will be 982 students at Japhet.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school’s principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With Japhet receiving students from Highland Park and Riverside Park and redesigning as an elementary school, more students and families will gain access to:

- A more stable and robust dual language program;
- Full time art and music teachers in addition to their existing part time music and art teachers; and
- An additional CIS site coordinator.
