BRIEF CRITERIA ANALYSIS

Miller meets two primary criteria. It has low enrollment and it is underused as a facility. Although enrollment has increased since 2021, the school has been consistently under-enrolled for most of the last twenty years. The small building footprint of Miller (~53,000 sq ft) and limited ability to expand makes Smith Elementary and King Academy better options to offer a thriving school for their neighborhood students and families. Smith Elementary will now incorporate all of Miller’s boundary. Both Smith and ML King will offer Dual Language programming. While ML King is being renovated, students in grades PK - 02 will attend ML King at Carroll, and students in grades 03 - 08 will attend ML King. Once renovations are complete, ML King will serve all students in grades PK - 08.

BENEFITS OF RIGHTSIZING

Rightsizing will lead to increased enrollment and additional resources. How those resources are used will be decided by the school’s principal, staff and Campus Advisory Council. Rightsizing decisions will lead to early childhood services in every elementary school, fewer split grade levels or teaching assignments, more courses or full-time specialty teachers (art, music, AVID, etc), increased staff collaboration, additional student services (mental health, social work, academic intervention, etc), more robust dual language programs, greater access to extracurriculars, and increases to campus budgets for positions like library services, Family and Community Engagement Specialists, and instructional coaches.

With ML King, King at Carroll, and Smith receiving students from Miller, more students and families will gain access to:

- Increased opportunities for Head Start program, services and resources;
- Enhanced fine arts opportunities and full-time elementary music and art teachers;
- Increased campus budgets for positions like library services, family engagement, and instruction; and
- Enhanced mental health and social services; and
- More robust dual language programming and a reduction or elimination of split classrooms.
